

Fiscal Court Resolution 11-09 A

This purpose of this resolution is to:

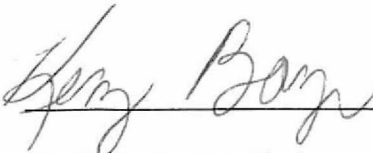

1. Recognize that INDUSTRY ROAD, CR-1195 is a County-maintained road for a length of 806 feet from where it begins at DUNCANNON LN, to where County maintenance ends at Richmond City Limits and the intersection with QUALITY DR. The segment of INDUSTRY ROAD that lies South of QUALITY DRIVE is within the City Limits of Richmond and is not County Maintained. See Map #1.
2. Recognize that QUALITY DRIVE is a County-maintained road for a length of 952 feet, from where it begins at INDUSTRY ROAD, to where it ends at Richmond City Limits and the parking lot of Lectrodryer, Inc. See Map #1.
3. Recognize that a 1,059 foot segment of WHITLOCK RD, CR-1336 is to be renamed as CARVERS FERRY ROAD in order to fix a problem that was created when a segment of WHITLOCK ROAD was removed from County maintenance several years ago. This segment is attached to CARVERS FERRY ROAD, and not to the remaining part of WHITLOCK ROAD, and thus to satisfy 911 Dispatch and Transportation Cabinet requirements for roadname continuity, this segment should be named as CARVERS FERRY RD. No addresses exist on this segment and no one will be affected by the road name change. See Map # 2.
